

FAQ

MBA STUDY PROGRAMME ON THE PAN-EUROPEAN UNIVERSITY

Where will I study?

We are the only private higher education institution recognized as the university in Slovakia. With the wide offer of study programmes, best quality equipment and top lecturers we can raise graduates who are ready and well prepared for their future jobs and positions. At all 5 faculties we implement the modern and fresh style of classes with the individual approach. We emphasize the international aspect of the education.

Who will hold lectures?

Our Executive MBA managerial study is realized by an international team consisting of top experts in their field from prestigious universities in Italy, Czech Republic, Poland, Slovak Republic and USA. The high value of the study is guaranteed not only by the lecturer team, but also by the Pan-European University, which is the best evaluated private university in Slovakia.

What are conditions to complete the MBA programme?

This programme consists out of lectures with the written essay, with no classic examination. Students are led to pick the topic of their final thesis according to their preference and their best knowledge. The final thesis/project deals with the selected topic according to the preference of each student.

The diploma

The MBA study programme is described as the professional degree. After the succesful graduation each student will obtain the graduation diploma of the succesfull completing the programme. For those students who are not able to pick up their diploma in person, it will be shipped by the shipping company.

What is the difference between the university degree and the professional degree in the Slovak Republic?

In contrast with British universities, the postgradual study programmes (MBA or LLM type) in Slovak or Czech republic are not recognized in the local education system and therefore are not underlying to the government accreditation; this study programme is a professional degree, not an university degree. The value of this programme is given by the authority (institution) issuing the diploma. Pan-European University is an accredited private university in Slovakia fully recognized by the government and the Ministry of Education of the Slovak republic, a part of the European Union. We are allowed to offer study programmes at all 3 level of the study (bachelor, master, doctoral) and the MBA/LLM programmes are fully accepted as the complementary post gradual and professional programmes. The title obtained (abbreviation "MBA") is fully recognized by the Ministry of the Interior and it is possible for our graduates to request the registration of this title in their ID cards/passports. Our study programmes received very good feedback abroad. The labor market shows that enterprises, or employers in general, mostly look at the institution which issued the diploma, the study records or the final thesis of a student. Our credibility is built by the lecturers delivering the quality, with experiences

from the highly ranked universities in UK. All offered programmes, both slovak and english, are evaluated by the internal quality validation so we can guarantee the quality assurance. Instead of the expensive licenses we offer the quality study programme for affordable price (ca 1/3 of the regular British price).

What is the general value of the MBA programme?

For someone the value comes with the obtained degree; it is the worst investment. The pluses of the post gradual programmes is way more ambitious. Except the formal education increase the programme brings the knowledge, new contacts, jobs incentives and last but not least – outcomes of the programme: the final thesis, based on gained knowledge and experiences, evaluated and supervised by the lecturers to bring the higher value to the student. The big plus is also the networking during the study sessions which might lead to the new job offers, projects, cooperation, orders, contacts or capacity building. In this matter, the investment return is an immediate moment.

Why the market competitors offer the lower price?

They save costs for the lecturers - how easy! Even though our study programme runs online, it is the live session. We organize all classes with the live streaming in the same quality as the onsite class.

Can I start immediately?

As part of the study, the student completes 8 separate modules, which are repeated each year. Therefore, the study system allows to begin the study at any time during the whole year. Starting on a different date means only a different order of the individual modules.

Can I choose the split payments?

Unfortunately, not. There is only one payment allowed.

How big are study groups?

Normally, the group consists out of 15 students.

Do I need visa or residence permit?

The study programme is 100% online. Means, you are not required to obtain visa or residence permit and you can connect from any place in the world.
